

# ConnectUS

High Yield Guaranteed

## *Decentralized finance ( Defi )*

- *Blockchain technology has made it possible for people to transfer the value of their assets efficiently, instantly, and with decentralized. Today, the emergence of it is driving the level of the right to freedom higher and higher. You can say this movement as a kind of democracy of currency and finance. Through this paradigm shift, you can become to get a significant profit of decentralized finance (DeFi).*

## *The Future of the Financial infrastructure*

- *When reviewing the financial infrastructure. Interest in cashless is getting to grow, and we expect that the adoption of cashless systems to the business will be accelerated in the next few years.*
- *Recently, the number of cases where global investment funds operate their assets with cryptocurrencies is increasing. It means that big investors also accept the cryptocurrency as a digital asset, expecting the future of blockchain.*

## *Safe Haven*

- *ConnectUS smart wallet helps you in getting connected to all your productive and high yield DeFi and Protocols which are exclusively held and managed by you.*
- *Providing access to all countless tokens and smart contract with ultra-fast and secure transactions.*

## *Ecosystem Emission*

- *CENN Tokens are ACTIVE smart token with a Total supply of 15,000.*
- *25% (3750) of CENN Tokens will be available for staking and liquidity farming.*
- *7% (1050) of Tokens will be airdropped .*
- *30% (4500) will added to uniswap liquidity pool.*
- *5% (750) will be used for ecosystem.*
- *36% (4950) Team and dev.*

## *ConnectUS adopts Liquidity farming and Airdrop system*

- *ConnectUS adopts a liquidity farming system for security purposes. Liquidity farming is a revenue share system that the contribution to the blockchain network through having the token decides the amount of it.*
- *You can receive interest if you just hold a certain amount of CENN token in your wallet. The average interest rate of banks is getting lower all over the world, so this liquidity farming and airdrop system will be an excellent opportunity to pursue more revenue by interest.*
- *An example of sources of the liquidity farming is commission occurred when someone add his/her cryptocurrency to the liquidity pool in our selected pair on the uniswap protocol.*

## *DeFi will change the world*

- *DeFi is now an up to date trend of the crypto world. ConnectUS has a goal to keep providing a future-oriented DeFi platform and ecosystem. We are one of the new leading projects of the DeFi business in the world.*
- *We've developed an ecosystem that allows everyone who would like to have a financial trade.*
